EXPERIENCE

Front End Developer FREELANCE

2022 - 2025

Helping businesses/individuals develop custom software applications, with a focus on responsive design and interactive user interfaces featuring buttons, forms, dynamic elements and much more.

- Developed and enhanced the client dashboard for OFP Funding (OverviewForex), a prop company that offers instant capital to new traders.
- Built a responsive eCommerce store by the name of *Puppy Lyfe Co*, that allows pet owners to purchase useful pet-related products.
- Non-profit christian responsive web platform called *Vite Trasformate* that showcases their mission and the work they do for the people in need.

Main technologies used: **Vue**, Nuxt, Pinia, React, Redux, JS, Tailwind CSS, Firebase, Git, GitHub, Netlify, Figma, Canva, Shopify, Wordpress, Adobe, Agile

Front End Developer 2023 - 2024 MANGROVIA BLOCKCHAIN SOLUTIONS

- Development of intuitive and visually engaging UI components for Datome, Mangrovia's flagship PaaS product. Leveraged WEB3 technology to optimize supply chain data and streamline information flow management.
 - Directed the front-end development and design for multiple platforms, including the Datome website, MBS corporate site, and the ChainKpr web platform, ensuring consistency, responsiveness, and user-centric design.
- Technologies:* **React**, Redux, Mantine UI, JavaScript, Typescript, HTML, Tailwind CSS, Git, Astro, Solidity, Metamask, Figma/UX Design, Agile

Front End Developer ACCENTURE 2021 - 2022

- Maintained a user experience application that fetched, parsed, and formatted data, and relayed it into React components.
 - Developed the software architecture and object-oriented code in JavaScript, React, HTML & CSS.
 - Front-end implementation of CRUD operations.
- Technologies:* **React**, Redux-saga, JavaScript, Bootstrap, styled-components, HTML, CSS, SASS, Git, GitHub, Node, Innersource, Zeplin, Jira, Figma, Agile

Administrative Secretary BENEFIT SRL 2020 - 2021

- Fulfilled my secretarial duties such as answering phone calls, scheduling appointments, organising documents, project management, greeting visitors, maintaining office supplies and equipment, performing data entry and other administrative tasks as needed.
- Technologies:* Microsoft Office 365, Business Database, Gmail, Google Drive

TOP SKILLS

- Front-end Software Development
- Web, UI/UX Design
- Blockchain Technology
- AI – Machine learning
- Project management (PMP certified)
- Problem solving, communication
